### ***The Alliance For PE Pipe's Newsletter April 2014 Issue***

#### **Who We Are**

The mission of the Alliance for PE Pipe, Inc. is to promote smooth-wall polyethylene pipe and fittings as the material of choice for municipal water and sewer piping applications. HDPE is the responsible choice for piping systems: Environmentally-responsible due to its leak-free properties, Fiscally- responsible due to its lower life-cycle, installation and

#### **Palo Alto Hosts Total Solutions Roadshow**

The Alliance for PE Pipe has a very simple mission. Share the features and benefits of HDPE pipe, fittings and equipment with those of you who design, specify, install and work with our nation's water and wastewater pipelines. The HDPE story is really quite compelling if you are willing to accept a different way to look at one of the more basic services we provide to our citizens.

maintenance costs, Socially-responsible due to trenchless installation resulting in less disruption to traffic flow and commerce. Help your city to make the responsible choice today. Choose HDPE for water and sewer piping.

### Polyethylene Pipe Offers:

- Trenchless installation
- Lowest failure rate for water mains
- Lowest life cycle costs
- Resistance to galvanic corrosion
- No gaskets to leak
- Outstanding flexibility
- Resistant to ground movement
- Excellent flow characteristics
- Low maintenance costs
- Easily repaired

Every once and a while a certain organization or person steps up to share their HDPE story with us. Palo Alto, California is one of these. They made the decision to use HDPE pipe for all of their water and wastewater about 15 years ago. Earlier this month we conducted one of our popular HDPE Total Solutions Roadshows in Palo Alto at one of their facilities. Over 75 municipal engineers, staff and consulting engineers came by that day in mid March to learn more about HDPE.

*Roadshow guests frequently photograph solutions they see.*

For these roadshow events, we assemble the country's most knowledgeable experts on all facets of design, installation and operation. We speak on features, benefits, accountability, pipe handling, engineer considerations and field issues like tapping, connecting and fittings. In Palo this month, we also learned a lot from the city staff. As Romel Antonio, Senior Project Engineer from Palo Alto put it, "It is a worry free, leak free system. How can you not consider it?" Palo said they use HDPE "for everything" and are very pleased with the results.

If you want to see what the buzz is about, take a look at the video.

*2014 HDPE Total Solutions Roadshow - Palo Alto*

The folks in Palo just may be on to something.....

We may be near you soon.

**Peter Dyke**  
**Executive Director**

### **Upcoming Events**

Grand Prairie (Dallas) TX	3/25/14
Houston, TX	3/26/14
Corpus Christi, TX	3/27/14
Tulsa, OK	4/15/14
Springfield, MO	4/17/14
New Orleans, LA	5/20/14
Baton Rouge, LA	5/21/14
Jackson, MS	5/22/14

Visit [www.pepipe.org/roadshow](http://www.pepipe.org/roadshow) if you can make on in your area. If you want to have a seminar or roadshow in your town, send me an email or give me a call. Have a great weekend and "See you on the road."
