

Background

The American Recovery and Reinvestment Act (Recovery Act) provided roughly \$4 billion for the Environmental Protection Agency's (EPA) Clean Water State Revolving Fund and roughly \$2 billion for EPA's Drinking Water State Revolving Fund. The State Revolving Funds are allocated by formula to states, which, in turn, provide low-interest loans to public water systems for water infrastructure improvements. These programs fund a wide variety of activities including construction or improvements to wastewater treatment plants, stormwater and sewer overflow control, water reuse and conservation projects, and the installation and replacement of drinking water treatment facilities. In order to be eligible to receive formula grants from EPA, states must create and maintain an Intended Use Plan (IUP), which includes a list of priority projects.

Funding Allocations to Date

EPA has allocated roughly \$5.3 billion of the \$6 billion provided in the Recovery Act, and the remaining funds will be allocated in the coming weeks. The attached document provides a state-by-state breakdown of funds allocated to date and provides a list of projects each state intends to finance with Recovery Act funding. When available, the state project lists provide both a total project cost (listed on the attachment as "Total Project Cost") and the portion of the project funded by the Recovery Act (listed on the attachment as "ARRA Funds"). In some instances, information specific to Recovery Act projects is not available. In those cases, fiscal year (FY) 2009 priority projects are substituted. Because each state lists its priority projects in a unique manner, explanatory information is provided related to funding columns in each state tab.

Notably, the figures provided in the "Funding to Date" tab might not match the "ARRA Funds" or other columns in each state tab for a variety of reasons. The line between which projects are eligible for Recovery Act funding and which will actually be funded is often blurry. EPA has yet to allocate all of the funding, affecting some states. Administrative costs at EPA and other hidden costs could affect the final number as well.

| <i>Drinking Water State Revolving Fund</i> | | |
|--|---|--------------|
| Entity | Project | ARRA Funds |
| City of Newdale | City needs to treat for arsenic and fluoride | \$1 200 000 |
| Caribou Acres Subdivision | The system needs to come into compliance with lead and copper rules | \$500 000 |
| Central Shoshone County Water District | Construct a microfiltration treatment plant | \$12 274 000 |
| Kingston Water District | Community needs to make improvements to its distribution system | \$3 200 000 |
| Mission Creek | Address high uranium levels | \$650 000 |
| North Pinehaven Water | City needs additional water supply and system improvements | \$900 000 |
| City of Inkom | Copper treatment, upgrades to distribution system | \$1 250 000 |
| City of Tensed | City needs to improve its system pressure | \$250 000 |
| Cub River Acres Subdivision | Construct improvements to wells and storage facilities and replace piping | \$428 000 |
| El Rancho Heights Home Owners Assoc. | Apply central treatment for high arsenic levels | \$348 000 |
| City of Weston | The City needs to improve its distribution system | \$600 000 |
| City of Iona | City needs additional water supply and distribution system improvements | \$2 900 000 |
| <i>Clean Water State Revolving Fund</i> | | |
| Entity | Project | ARRA Funds |
| City of Reubens | Aging individual septic systems will be replaced | \$1 380 000 |
| City of Potlatch | Renovation of lift station | \$3 160 000 |
| City of Murtaugh | New storage lagoon, headworks NPDES discharger | \$900 000 |
| City of Melba | Improvements to treatment facilities | \$2 100 000 |
| City of Bliss | Aging individual septic systems will be replaced | \$6 400 000 |
| City of Lava Hot Springs | Design and construct new trunk line | \$9 320 000 |
| City of Coeur D'Alene | Upgrade treatment to meet permit limits | \$8 579 100 |

| <i>All ARRA Clean and Drinking Water Stimulus Recipients*</i> | | | |
|---|--|--------------------|--------------|
| Entity | Project | Total Project Cost | ARRA Funds |
| St. Elmo | Wastewater Treatment Plant construction | \$701 000 | \$350 500 |
| DeKalb Sanitary District | Wastewater Treatment Plant process upgrades/improvements and lift station construction | \$20 000 000 | \$10 000 000 |
| Village of Manhattan | Upgrade and expand water supply well #6, including the addition of HMO treatment for radium reduction | \$3 199 167 | \$1 599 584 |
| South Lyons Township Sanitary District | Sanitary sewer and manhole replacement and rehabilitation | \$5 108 456 | \$2 554 228 |
| Evanston | Water main replacement and water intake system improvements | \$1 933 862 | \$966 931 |
| Yorkville-Bristol Sanitary District | Sewer/Utility connections for new WWTP site | \$1 450 719 | \$725 360 |
| Springfield Metropolitan Sanitary District | Relacement of the Spring Creek Wastewater Treatment Plant: phase one construction | \$20 000 000 | \$10 000 000 |
| Town of Normal | Drinking water filter replacement and upgrade | \$1 479 677 | \$739 839 |
| Village of New Baden | Wastewater treatment plant upgrade and expansion | \$3 612 655 | \$1 806 328 |
| Aurora | Water main replacement | \$1 137 278 | \$568 639 |
| Pittsfield | Construction of a new water treatment plant, water supply wells and water main | \$9 326 022 | \$4 663 011 |
| Taylorville | Construction of a new, 1,500,000 gallon elevated water storage tank and approximately 20,000 linear feet of water main | \$4 769 736 | \$2 384 868 |
| Villa Park | Sanitary sewer and manhole replacement and repair | \$2 922 116 | \$1 461 058 |
| Sycamore | Upgrade and expansion of sludge handling and processing facilities | \$5 506 532 | \$2 753 266 |
| Streator | Separation/Replacement of the Kent Street Interceptor Sewer | \$13 781 387 | \$6 890 694 |
| Rockford | Rehabilitation and upgrade of the Rockford Public Water Supply: Group Three improvements | \$6 877 227 | \$3 438 614 |
| Metropolitan Water Reclamation District | Rehabilitation of the Evanston Interceptor Sewer: Orrington Avenue leg | \$5 647 514 | \$2 823 757 |
| Village of Rossville | Construct new Water Treatment Plant and related facilities and appurtenances | \$200 000 | \$100 000 |
| Village of Arenzville | Construction of a new 75,000 gallon water storage tank with related pumps and appurtenances | \$812 603 | \$406 302 |

| | | | |
|--|---|--------------|--------------|
| Otter Lake Water Commission | Upgrade and expand the existing Water Treatment Plant | \$6 263 975 | \$3 131 988 |
| Mechanicsburg-Buffalo Water Commission | Renovate and expand the existing Water Treatment Plant | \$1 039 458 | \$519 729 |
| Lake Iroquois Association | Paint and restore the existing water storage tank | \$245 040 | \$122 520 |
| City of Macomb | Construct a new ammonia feed system and make other compliance related improvements at the Water Treatment Plant | \$902 102 | \$451 051 |
| Beardstown | Construction of a new 1,000,000 gallon water storage tank and related appurtenances | \$2 500 000 | \$1 250 000 |
| North Chicago | Sanitary sewer replacement and upsizing | \$1 752 856 | \$876 428 |
| Mascoutah | New lift station construction/major sewer system rehabilitation | \$3 273 529 | \$1 636 765 |
| Village of Franklin | Construction of a new sanitary sewer collection and treatment system: new sewer service | \$1 523 817 | \$761 909 |
| Village of Butler | Construction of a new sanitary sewer collection system: new sewer service | \$281 180 | \$140 590 |
| Village of New Baden | Sewer and manhole excavation, repair and lining | \$414 343 | \$207 172 |
| New Haven | Water main replacement and associated distribution system improvements | \$176 025 | \$88 013 |
| Rock Falls | Construction of a new Wastewater Treatment Plant at a new plant site | \$20 000 000 | \$10 000 000 |
| Rend Lake Conservancy District | Construction of water main, storage tank and booster pump stations required to extend water service to Marion, Illinois | \$1 728 647 | \$864 324 |
| Marion | Construction of water main plus a proportionate share of construction for a storage tank and booster pump stations required to secure potable water under an intergovernmental agreement with the Rend Lake Conservancy District. | \$571 381 | \$285 691 |
| Sanitary District of Decatur | Rehabilitation/Replacement of the Wyckles Force Main | \$1 299 820 | \$649 910 |
| Sanitary District of Decatur | Extend sanitary sewer service to the unsewered community of Oreana | \$6 069 748 | \$3 034 874 |
| Rock River Water Reclamation District | Replacement of East Interceptor sewer | \$2 482 463 | \$1 241 232 |
| Ashton | Construct three new sanitary trunk sewers | \$434 094 | \$217 047 |

| | | | |
|-----------------------------------|---|-------------|-------------|
| Mascoutah | Water main replacement and other distribution system improvements | \$736 455 | \$368 228 |
| Hamel | Construction of a new 600,000 gallon water tower and other distribution system improvements | \$1 400 000 | \$700 000 |
| Ellis Grove | Construction of a new 100,000 gallon water tower and other distribution system improvements | \$175 825 | \$87 913 |
| Wauconda | Construction of a new well and water treatment plant | \$1 473 057 | \$736 529 |
| Pecatonica | Wastewater Treatment Plant (STP) upgrade and expansion | \$6 200 000 | \$3 100 000 |
| Dixon | Phase II construction of water treatment facilities for compliance with Radium MCL | \$4 134 201 | \$2 067 101 |
| Lamoille | Construct new water treatment facilities, including new iron pressure removal filters, new high service pumps and a backwash storage tank | \$211 000 | \$105 500 |
| Groveland Township Water District | Water tower rehabilitation | \$214 546 | \$107 273 |
| Rutland | Water tower rehabilitation | \$109 234 | \$54 617 |
| Piper City | Water tower rehabilitation | \$115 116 | \$57 558 |

| Cullen (Webster) | Major upgrade to existing WWTP | \$925 000 |
| Delcambre (Vermilion and Iberia) | Rehabilitation of rock reed filter | \$900 000 |
| Delhi (Richland) | Collection system evaluation and rehabilitation | \$1 000 000 |
| DeQuincy (Calcasieu) | Rehab transfer station and sewer main | \$750 000 |
| Eunice (St. Landry) | Rehabilitation and upgrade to existing WWTP | \$801 509 |
| Grambling (Lincoln) | Major equipment repairs and system upgrades | \$533 000 |
| Grand Isle (Jefferson) | Reforestation of Grand Isle and vicinity | \$750 000 |

| | | |
|------------------------------|--|-------------|
| Hall Summit (Red River) | Lift station rehabilitation | \$134 300 |
| Hammond (Tangipahoa) | Rehabilitate and install new force main | \$900 000 |
| Hornbeck (Vernon) | Upgrade to 3 pump stations | \$525 000 |
| Jackson (East Feliciana) | Rehabilitation of the sewage collection line | \$525 232 |
| Jeanerette (Iberia) | Rehabilitate main pump station | \$250 000 |
| Jennings (Jefferson Davis) | Collection system line and manhole rehabilitation | \$1 000 000 |
| Jonesboro (Jackson) | Rehabilitation of sewer collection lines | \$800 000 |
| Killian (Livingston) | Install new water meters | \$110 777 |
| Lafourche Parish Lewistown 3 | WTP and collection system rehabilitation | \$358 921 |
| Lafourche Parish Marydale | WWTP and collection system rehabilitation | \$596 162 |
| Lafourche Parish Rita | WWTP upgrade | \$46 173 |
| Leesville (Vernon) | Rehab lift station, transfer station, and collection lines | \$850 000 |
| Madison Parish | Lift station rehabilitation for two subdivisions | \$90 000 |
| Mamou (Evangeline) | WWTP rehabilitation | \$1 000 000 |
| Mansfield (De Soto) | Rehabilitation of gravity sewer main | \$1 214 800 |
| Mansura (Avoyelles) | New interceptor, new aerators at plant and rehab to levee system and I/I rehab | \$1 270 000 |
| Many (Natchitoches) | Sewer pump station replacements | \$251 000 |
| Maringouin (Iberville) | Upgrade existing activated sludge treatment lagoon | \$300 000 |
| Marion (Union) | Installation and rehabilitation of sewer collection lines | \$289 221 |
| Merryville (Beauregard) | Replace mechanical equipment at treatment plant | \$1 000 000 |
| Natchitoches (Natchitoches) | Gravity sewer system rehabilitation, Sludge press replacement, and vacuum trucks | \$1 183 000 |
| Oakdale (Allen) | Upgrade, rehabilitate, expand wastewater system | \$1 000 000 |
| Oil City (Caddo) | Correct WWTP deficiencies and replacement of sewer lines | \$700 000 |
| Opelousas (St. Landry) | Replacement of lift station | \$1 188 000 |
| Pleasant Hill (Sabine) | Rehabilitate WWTP | \$620 000 |
| Sicily Island (Catahoula) | Collection system and WWTP rehabilitation | \$525 992 |
| Simsboro (Lincoln) | Manhole rehabilitation (10) | \$100 000 |
| Urania (La Salle) | Replace WWTP | \$1 265 000 |
| Vinton (Calcasieu) | Install new water meters | \$1 200 000 |
| Washington (St. Landry) | Collection system and lift station rehab | \$800 000 |
| Waterproof (Tensas) | Major renovation of WWTP (Influent pumps, aerators, and UV) | \$550 000 |
| Welsh (Jefferson Davis) | Replace all main lines, diffusers, and diffuser lines in the WWTP | \$190 000 |
| West Monroe (Ouachita) | Construct new treatment plant with recycling capability | \$4 750 000 |

Drinking Water: http://www.ny.gov/governor/press/pdf/083109_stimulus_drinking_water_list.pdf

| <i>Drinking Water State Revolving Fund</i> | | |
|--|--|-------------------|
| Entity | Project | Amount Requested* |
| Mitchell, County of | Consolidate failing Mitchell Co. High School W/S by constructing BPS, 150,000-gallon tank & 18,000 LF of 10-inch W/L from Town of Spruce Pine via Ledger Community | \$2 017 842 |
| Duplin County Water District D | Installation of approximately 4.5 miles of 12-inch transmission main to supply water to other County Water Districts affected by CCPCUA aquifer withdrawal reductions | \$729 000 |
| Farmville, Town of | 10+ miles of 12-inch transmission mains, two booster pump stations, and chloramine conversion of existing wells to allow interconnection with Greenville Utilities Commission system to address CCPCUA mandatory withdrawal reductions | \$3 000 000 |
| Spring Lake, Town of | Solar tank mixing system for 750,000 gallon EST to alleviate TTHM MCL violations | \$76 500 |
| Greene County Regional W/S | Installation of approximately 6.4 miles of finished water transmission mains to support purchase from GUC needed to address CCPCUA mandatory withdrawal reductions | \$3 000 000 |
| Belfast-Patetown Sanitary District | Installation of 13,760 ft of 12-inch and 2,700 ft of 8-inch water mains to connect the NWWSD-BPSD joint WTP and a new well to the District's distribution grid; wellhead improvements at the new well site -- Project needed to address CCPCUA mandatory withdrawal reductions | \$1 165 000 |
| Elizabeth City | Expansion of well field with four new wells to meet 12-hr/day max pumping requirement --WTP improvements originally included in the scope of this project were considered as a separate project (DEH# 1588) because of a lower Category | \$3 000 000 |
| Wayne Northwestern Wayne Sanitary District | Install 19,000 LF of 12-inch and 8-inch transmission mains to connect the District to Johnston County and allow purchase of 0.625 MGD to address mandatory CCPCUA withdrawal reductions | \$684 000 |
| Winston-Salem, City of | Install twelve (12) sampling stations for IDSE identified sites for D/DBP sampling and testing | \$34 834 |
| Energy United Water Corp. | EUWC - Town of Love Valley Interconnect: 10,200 LF 8-inch; 12800 LF 6-inch; and 5,000 LF of 2-inch water mains and other appurtenances | \$856 826 |
| Montreat, Town of | Construct two (2) new wells (Harmony & Greybeard), one in each of the two pressure zones, to provide additional capacity; replace ex. 8-inch W/L on Greybeard Trail with new 6-inch W/L to address water quality issue | \$630 000 |

| | | |
|-------------------------------------|--|-------------|
| Columbia, Town of | Installation of one new well and associated 10,500 LF of 8-inch raw-water main to the Town's WTP to allow withdrawal reductions from two existing wells impacted by rising chloride concentrations | \$507 000 |
| Clay, County of | Construct 15,500 feet of waterlines, booster pump station & master meter vault to interconnect with Towns County W&S Authority | \$1 073 289 |
| Gulf Sanitary District Water System | Interconnection with the City of Sanford | \$495 465 |
| Catawba Catawba, County of | Interconnect Town of Maiden to Southeastern Catawba County Water System | \$3 715 702 |
| Rose Hill, Town of | New supply well to replace existing one with declining yield -- Originally proposed as part of project DEH# 1160 and separated from it because of higher Category (Necessary components previously omitted when project split. Increased original allocation by \$104,024) | \$3 377 000 |
| Franklinton, Town of | WTP filter renovations | \$300 900 |
| Andrews, Town of | Replace Alum-Sludge Lagoon (WTP W/W) | \$715 326 |
| Gibsonville, Town of | Second interconnection with Burlington; Hwy 61-Church St. & Dew Sharpe Rd. W/L ext. (to be broken out into a separate DEH # from the meter vault) | \$392 700 |
| First Craven Sanitary District | OFFER DECLINED – Provisional Allocation of \$99,773 set to \$0 – Sodium permanganate feed system for iron treatment (Project opted to use alternative funding. Allocation reduced by \$99,773) | \$99 773 |
| Kill Devil Hills, Town of | Installation of grid-powered submersible water mixers in two ESTs for improved water quality | \$112 522 |
| Perquimans, County of | Replace existing aerator detention tank; new high service pump station; new 1 MG clearwell; new chemical feed systems for improved treated water quality | \$3 956 735 |
| Maggie Valley Sanitary District | MVSD-Waynesville Interconnection via 500-gpm BPS to supply water to MVSD from Waynesville in times of drought or emergency -- W/L replacement: Construct 8,400 LF 8-inch & 500 LF 12-inch W/L Along Hwy 19 | \$1 021 020 |
| Elon, Town of | Eligible project cost only reflects Interconnection: Install 12-inch Master Meter, Meter Vault, and appurtenances to Assist Town of Ossipee (On A Moratorium For New Connections) via interconnection with City Of Burlington | \$1 000 000 |

**Prepared
Exclusively for the
Alliance for PE Pipe**

| | | |
|--------------------------------------|---|-------------|
| Clinton, City of | Construct a new 150K clearwell for additional storage, redundancy of clearwell maintenance & sanitation-Category 3 -- Install 9,400 LF of 12-inch water main to eliminate two dead ends to improve water quality by reducing THMs/HAA5-Category 4 (see DEH# 1590) | \$458 052 |
| Tarboro, Town of | Filter media and sweep replacement for all six (6) WTP filters (old and worn out) | \$325 000 |
| Southeastern Wayne Sanitary District | Installation of 6.5 miles of 8-inch and 12-inch raw water transmission mains to connect an existing well to the WTP and close a loop with another well | \$1 593 000 |
| Holly Springs, Town of | Solar powered mixing system for tanks to improve water quality | \$81 600 |
| Sanford, City of | Rehab 2 MG clearwell at WTP by replacing the roof and dividing the clearwell into two cells (old and deteriorated) | \$2 526 132 |
| Littleton, Town of | 8" waterline connection with Warren County to address TTHM violation (Category 2); and water meters replacement with AMR (Category 4) see project DEH-1602 | \$214 169 |
| Warsaw, Town of | Retrofit unused existing well with iron removal system to allow to reduce current pumping rates from other Town wells in compliance with maximum 12 hr/day rule | \$1 650 000 |
| Fork Township Sanitary District | 10,000 feet of raw-water transmission mains and wellhead improvements to connect four new wells to the District's WTP needed to address mandatory CCPCUA aquifer withdrawal reductions | \$902 000 |
| Eastern Wayne Sanitary District | Pumps and wellheads for two existing shallow-aquifer wells for additional source needed to address CCPCUA mandatory withdrawal reductions. Third well and 10,500 ft of 12" raw-water main to connect this well to the WTP removed | \$854 000 |
| Jacksonville, City of | Four new non-Cretaceous aquifer wells, raw-water transmission mains, retrofit of pump station and SCADA system to address CCPCUA mandatory withdrawal reductions | \$3 879 000 |
| Onslow Water & Sewer Authority | Two new supply wells to address CCPCUA mandatory withdrawal reductions | \$451 000 |
| Onslow Water & Sewer Authority | Installation of approximately 9,000 ft of raw-water transmission main to connect two new wells to the Dixon WTP -- Project needed (in conjunction with DEH-1416) to address CCPCUA mandatory withdrawal reductions | \$778 950 |
| Ronda, Town of | Ronda-Elkin Interconnection; replace-in-kind 1-inch & 2-inch galvanized iron pipe W/L with 2-inch PVC | \$1 493 484 |

| <i>Clean Water State Revolving Fund</i> | | |
|--|---|--------------|
| Entity | Project | ARRA Funding |
| Highlands, Town of | Storm water Treatment (Pine Street Park Storm water Demonstration) | \$546 517 |
| Watauga County (Western North Carolina Alliance) | Stream Restoration (Watauga River) | \$580 000 |
| Black Mountain, Town of | Tomahawk Storm water Management | \$412 840 |
| Mecklenburg County | Torrence Creek Stream Restoration - 15,600' of stream Mecklenburg | \$2 576 000 |
| Asheville, City of (Trans & Eng) | Storm water Improvements (Dingle Creek) Buncombe | \$454 500 |
| Buncombe County Government | Expansion of pre-treatment system, extension of exiting leachate injection/gas recovery lines for Buncombe County's Subtitle D Landfill | \$3 000 000 |
| Fayetteville, City of | SW Improvements (Skye Dr.) | \$557 000 |
| Raleigh, City of | Reuse Irrigation Sysytem (Neuse River WWTP) | \$1 541 906 |
| Southport, City of | Pump station/Force main, Addition of a 1,680 gpm PS, 19,900 lf of force main, Existing WW Treatment Plant Demo | \$3 000 000 |
| Brunswick County Administration | Sewer Collection System (Sunset Beach), Approx. 12,700 lf of 8" Sewer, Approx. 104,700 lf of 1.5", 2", 3", 4", and 6" FM | \$3 000 000 |
| Pittsboro, Town of | Addition of EQ Basin | \$2 634 800 |
| Burgaw, Town of | Wastewater System Improvements: construction of ww transmission forcemain and decomissioning of permitted WWTP, 2 pump stations | \$3 000 000 |
| Charlotte, City of | Stream Restoration and Storm water Treatment (Muddy Creek/Campbell Creek and Tributaries) | \$2 194 900 |
| Fayetteville, City of | SW Improvements (Kornbow Neighborhood) | \$600 000 |
| Carolina Beach, Town of | Wilmington beach Stormwater Treatment Ponds | \$2 300 000 |
| Burlington, City of | Kernodle Center Cistern (stormwater collection for Irrigation) | \$65 000 |
| Raleigh, City of | Storm water Treatment (Rainwater Harvesting/Reuse at Fire Stations) | \$465 735 |
| Marion, City of | Improvements to Corpening Creek WWTP, construct new PS and FM to remove Catawba River WWTP from service | \$2 601 364 |
| Graham, City of | 2009 Sanitary Sewer System Improvements | \$1 000 000 |
| Hickory, City of | Cripple Creek Replacement (Replacement of 21" Clay with 24" PVC Sewer) | \$1 938 000 |
| Youngsville, Town of | Sewer Rehab (Hattles Branch) | \$919 280 |
| Carolina Beach, Town of | Lake Park Blvd. Sanitary Sewer Rehab and Replacement | \$1 000 000 |
| Eden, City of | Dry Creek Phase 1/Smith River Phase 1 Sanitary Rehabilitation and Repair | \$714 303 |
| Morehead City | Renovate Pump Station #12 and Replace Pump Station #9 | \$2 100 000 |
| Charlotte, City of | Revolution Park Water Reuse Project, Construction of 8-10 Acre Regional Basin | \$577 555 |

| | | |
|-------------------------------------|---|-------------|
| Mebane, City of | Ninth Street Sewer Outfall Replacement | \$230 000 |
| Kure Beach, Town of | Replace/Rehab Approx. 6,500 lf of Sewer | \$619 432 |
| Moore County | Pinehurst Lake Lift Station Replacements, 5 Pump Stations to Replace Existing Stations | \$3 000 000 |
| Cove City, Town of | Sewer System Extension, New Pump Station and 3,900 lf of Sewer | \$1 250 000 |
| Selma, Town of | Telemetry of WW Pumping Station | \$180 000 |
| Conover, City of | NE Outfall and Associated Sewer System Rehabilitation and Replacement Project | \$1 727 025 |
| Murphy, Town of | Pump Station Upgrades, Replacement of Existing Pumps (M.M. Center PS) - Upgrade of Existing Pumps (C.H. PS), Addition of Emergency Generator | \$771 500 |
| Rich Square, Town of | Sewer Rehab (Bridgers Creek) | \$1 728 180 |
| Columbus, Town of | Sewer Rehabilitation, Replacement of approximately 35 Manholes | \$280 600 |
| Gastonia, City of | Rehab for Influent Sewer Line (Catawba Creek) | \$308 532 |
| Highlands, Town of | Mirror Lake Sewer Improvements - 10,150 LF of 8" iron sewer lines, service connections, and one pump station to connect area currently served by onsite septic systems | \$3 000 000 |
| Hertford, Town of | Sewer System Rehab (14,835 lf of 6"-10" Sewer), 420 Vertical Feet of Manhole Repairs/replacement | \$854 187 |
| Scotland Neck, Town of | Sewer Rehab (Canal Creek)-Wastewater Collection System Improvements-Phase IV | \$1 534 250 |
| Rhodhiss, Town of | Sewer Rehab, Rehab 30 deteriorated manholes, New frames/coves for 20 manholes, Rehab 2,500 lf of gravity sewer, CCTV inspection on | \$188 764 |
| Liberty, Town of | Frazier Ave. Replacement/Rehab, Replace approximately 3,000 lf of 8" sewer, Replace/Rehab 6 manholes | \$300 000 |
| Troutman, Town of | Gravity sewer pipe and manhole rehabilitation and pump station modifications, Replacement of 12 Manholes | \$237 595 |
| Tuckaseegee Water & Sewer Authority | WW Treatment Plant Expansion, Expand Capacity from 1.5 MGD to 3.5 MGD, Addition of SBRs, Screening, Grit Removal, Post EQ, CL Contact Basin, Post Aeration, Aerobic Digester, and Sludge Drying | \$3 000 000 |
| Buncombe County MSD | Lake Julian Sewer Rehabilitation | \$1 029 600 |
| Dover, Town of | Sewer System Expansion, One Pump Station and 5,000 lf of Sewer | \$1 100 000 |
| Chadbourn, Town of | Sewer Rehab (Soules Creek) | \$1 212 491 |
| Wilson, City of | Sewer Rehab (Contentnea Interceptor), Lining for 9,008 lf of 30" Sewer | \$1 396 006 |
| High Point, City of | Replace Obsolete Sanitary Sewer Lines - replace 9,940 LF with new and/or relined 8: sanitary lines in 9 inner city High Point neighborhoods | \$1 798 500 |

| | | |
|----------------------|--|--------------------------|
| Roxboro, City of | Rehabilitation of Sewer outfalls and mains draining to the City of Roxboro's Brooks Pump station consisting of lining 3700 ft of 8 inch sewer, pipe bursting 970 ft of 6 and 8 inch sewer pipe, and repairing 33 sewer connections | \$465 548 |
| Bryson City, Town of | Sewer Replacement and Pump Station Upgrade, Replace Pump Station (Tuckaseigee River), Replace Approx. 2,300 lf of 10" with 16" Swain Lake Lure, Town of Sewer joint wrapping/sealing | \$166,524 \$3 000 000 |

Clean Water and Drinking Water Announcement Round 1: <http://www.owrb.ok.gov/news/news2/pressrelease2009.php#041409>

Clean Water and Drinking Water Announcement Round 2: <http://www.owrb.ok.gov/news/news2/pressrelease2009.php#071409>

| <i>Drinking Water State Revolving Fund</i> | | | |
|--|--|--------------------|----------------|
| Entity | Project | Total Project Cost | ARRA Funds |
| Portland | Replace submersible pump/ motors assemblies with leaking mercury seals for seven production wells with higher efficiency pump / motor assemblies | \$1 545 000.00 | \$1 300 000.00 |
| Rockaway Beach | Construct a new water treatment plant to replace the existing plant that no longer is able to provide drinking water that meets today's more stringent health standards. The project will also allow the City to replace several older pumps with new water and energy high efficiency pumps. | \$2 407 870.00 | \$2 407 870.00 |
| Bend | Funding will provide for two well improvement projects, construction of fixed based data automated meter reader collectors at approximately 32 locations throughout the City and replacement of old inefficient meters, and finally, installation of over 3900 lineal feet of distribution line pipe replacing undersized pipe and providing higher water delivery and energy efficiencies within the water distribution system. | \$5 613 000.00 | \$5 613 000.00 |
| Fairview | Construct a new well (Well #9) to increase City's system capacity and offset decommissioning of Well #6 which is impacted by concentrations of trichloroethylene (a hazardous substance) above safe drinking water maximum contaminant levels. | \$1 654 500.00 | \$1 250 000.00 |
| Marshland | Water Improvements Project: Funds will allow the system to decommission and replace its current drinking water well which contains arsenic in excess of current standards with treated water from a spring water source. | \$270 392.00 | \$264 018.00 |

| | | | |
|-------------------|--|----------------|----------------|
| Arch Cape | Water Treatment Plant Upgrade and Distribution System Improvements: Project funding will allow the District to replace its existing pressure filter water treatment system with membrane filtration and UV disinfection in order to meet Safe Drinking Water Act standards and to replace over 4,200 lineal feet of old leaking pipe. | \$1 277 768.00 | \$1 258 000.00 |
| Gresham | Residential meter Replacement Project: Project will replace approximately 17,000 service meters with an automated fixed base meter reading system. This project will substantially reduce costly person hours to read meters, develop an instantaneous reading method that will enable the City to analyze water consumption patterns and identify residential and system leaks. | \$4 001 400.00 | \$4 001 400.00 |
| Falcon Cove Beach | Water Storage Tank Project: Funding will allow District to meet critical water storage needs through the construct a new concrete water storage tank that will augment its existing water storage capacity, and to install an emergency generator that will allow for pumping of source water during events of power grid failure. | \$250 000.00 | \$220 000.00 |
| Tri-City Water | Clearwell Baffle Project: The Authority's original clearwell, constructed in 1979, no longer provides sufficient baffling to ensure adequate disinfection contact time during high water demand events. This project will allow the Authority to install baffling and manifold in its clearwell along with necessary piping replacement | \$207 100.00 | \$186 600.00 |
| The Dalles | Terminal Reservoir Project: This project will allow the City to address several water system deficiencies by providing sufficient water pressure to customers at higher elevations, eliminating unreliable 20 year old pressure enhancement stations, and providing backup reservoir backup maintenance service. | \$8 232 700.00 | \$5 977 545.00 |

| | | | |
|-------------|---|----------------|----------------|
| Woodburn | Funding will finance the construction of a 2.7 million gallon steel reservoir, a pump station with standby generator, pressure reducing valves and over 8400 lineal feet of water main pipe. | \$2 800 000.00 | \$2 800 000.00 |
| Warrenton | Water System Consolidation Project: This project will fund connection of three small individual water systems onto the City's water distribution system | \$5 469 038.00 | \$5 399 038.00 |
| Fern Valley | LT2 Compliance Project: The City's water system is unable to meet recently implemented safe drinking water standards with respect to its existing open reservoir. This project will allow the City to construct a new 3.5 million gallon covered reservoir, extend two waterlines over 3000 lineal feet from Highway 101 to the reservoir and upgrade a single lane access bridge to the reservoir. | \$1 449 850.00 | \$1 449 850.00 |
| Elgin | This project will provide the District with funding to replace large portions of its distribution system with new pipe, fittings, valves and vents, and to install security fencing around its water source. | \$1 260 200.00 | \$1 260 200.00 |
| Tigard | This project will replace aging, under-sized, failure prone key distribution system main lines, it will replace the pressure "reducing valve with an automated system, it will allow the City to replace old water meters with an automated meter reading system, and provide security system and flowmeter improvements around drinking water wells." | \$5 154 000.00 | \$4 796 000.00 |
| Aurora | This project will enable the City to retrofit the water reservoir against a seismic event as well as replace the existing undersized single pump system with a more appropriately sized energy efficient pump station. | \$646 625.00 | \$631 625.00 |
| Wickiup | This project will enable the City to install a water filtration system that will reduce arsenic, as well as, manganese and iron levels below EPA Secondary Standards. | \$2 251 500.00 | \$2 251 500.00 |

| Timber | Project will provide for the construction of a new water storage reservoir facility along with replacement of over 12,000 lineal feet of undersized distribution lines. | \$675 685.00 | \$675 685.00 |
|--|---|--------------------|--------------|
| <i>Clean Water State Revolving Fund</i> | | | |
| Entity | Project | Total Proejct Cost | ARRA Funds |
| City of Milwaukie | Add sewers to unsewered areas | \$4 511 617 | \$4 000 000 |
| City of Pendleton | Upgrade of wastewater treatment plant | \$24 770 000 | \$4 000 000 |
| City of Scappoose | Design and construction of wastewater treatment and pump stations | \$1 502 000 | \$705 660 |
| Swalley Irrigation District | Construct pipe to remove irrigation water from canals | \$10 658 329 | \$3 100 000 |
| Three Sisters Irrigation Dist | Construct pipe to remove irrigation water from open ditches | \$7 300 000 | \$465 340 |
| City of St. Helens | Rehabilitate sanitary and storm sewers | \$9 980 000 | \$4 000 000 |
| City of Albany | Construct integrated natural wetlands that will treat effluent | \$14 500 000 | \$4 000 000 |
| City of Astoria | Eliminate discharge of untreated sewage to Youngs Bay | \$8 831 203 | \$4 000 000 |
| Clackamas County Service | Design and construct new collector sewers | \$12 800 100 | \$4 000 000 |
| Central Oregon Irrigation D | Contruct pipeline to replace an open canal | \$13 942 473 | \$4 000 000 |
| Farmers Irrigation District | Remove irrigation water from open ditches into pipe | \$35 000 000 | \$4 000 000 |
| City of Millersburg | Construct integrated natural wetlands that will treat effluent | \$14 500 000 | \$4 000 000 |

| Port Matilda Boro Auth | SR 220 Sewer Line Extension | \$1 172 085 |
| South Annville TWP Auth | Sewer Collection system | \$5 123 745 |
| Bedford TWP MA | Area 3Sanitary Sewer Extension | \$2 950 000 |
| Washington TWP MA | Pine Run Sewer Project | \$5 392 550 |
| Greensboro Monongahla TWP JSA | Cabbage Flats/Mapletown SS & WWTP Upgrade | \$6 006 183 |
| Lewis TWP | Wastewater Project | \$5 535 625 |
| Eldred Twp (McKean Cty) - Wastewater Collection Project | Construction of small diameter low pressure sewers to serve 84 existing EDUs along State Rt 346, and Windfall, Smith, and Loop Rds. Wastewater will be conveyed to the Otto Twp WWTP for treatment. | \$1 520 000 |
| Independence-Cross Creek Jt. Sewer Authority - Sanitary Sewer System | Construction Of A 236,000 Gpd Stp, Pump Station, And 90,000 Lf Of Gravity Sewers | \$16 119 000 |
| East Franklin Twp - Sanitary Sewerage System | Construction Of 3 Stps , 4 Pump Stations, And 33,800 Lf Of Sewers To Serve 3 Areas Of East Franklin Twp | \$10 535 000 |
| Plymouth Twp - Sanitary Sewer Project | This project will utilize primarily new gravity sewer lines to convey sewage from existing homes to the existing conveyance systems already in place. | \$8 444 000 |
| Paint Twp - Sewer Extensions to Rummel and Pomroy's Corner | The project will consist of approximatley 40,000 lf of collection lines, which includes bothe gravity and force mains. The project also proposed one pump station to assist with the collection of the Pomroy's Corner area | \$5 150 000 |
| Scott Twp SWA - Wastewater Collection System | Six pumping Stations, 157,810 feet of the combination of: force main pipe; gravity pipe line; and low pressure sewer pipe. There will be 1360 grinder pumps serving the system and they will owned and maintained by Scott. | \$11 000 000 |
| Belfast Twp - Needmore Wastewater Treatment Facility and Collection System | The treatment facility will serve 80 EDUs and be designed for 100 EDU's for future population growth. Averte design flow = 100 EDUx 270 gpd/EDU = 27,000 gpd. Treatment plant designed for 20,00 gpd. | \$2 000 000 |
| Fairview Twp Sewer Authroity - Sanitary Subdivision Phase 2 | Malfunctioning on-lot septic systems | \$565 000 |

| | | |
|--|--|--------------|
| Pittsburgh WSA - Sanitary Sewer Improvement Projects - Phase 2 | The project consists of the rehabilitation (Cured-in Place CIPP Lining) of approximately 3.0 miles of 8 inch diameter to 30 inch diameter sewer pipe; approximately 2,000 linear feet rehabilitation of large diameter public sewers utilizing gunite dry methods; open cut and improvements of approximately 6,700 linear feet of 18 inch to 24 inch reinforced concrete sewer and televising and cleaning of 136 miles of sewer throughout the entire PWSA service | \$10 264 250 |
| Allegheny Cty San Auth - Alcosan County: Capital Improvements Program 2009 | Upgrade McKees Rocks pump station, install 5,300 lineal feet of 60" storm sewers to reroute the streams | \$11 775 000 |
| New Buffalo Boro - Sanitary Sewer and WWTF Project | Project includes approximately 4,500 feet of sewer lines, one pump station, a 20,000 GPD sequencing batch reactor sewage treatment facility, and an outfall structure to discharge to Buffalo Run approximately 400 feet from the Susquehanna River | \$800 000 |
| Sugar Grove Area SA - Phase III Sewer Line Extension | Construction of over 78,000 LF of varying sizes pressure sewer, 125 grinder pump stations and two booster pumping stations. Upgrade two pumping stations and wastewater treatment plant. | \$3 164 750 |
| Lehigh Cty Auth Flow Equalization Tank at LCA Wastewater Treatment Plant | The Flow Equalization Tank (FET) has a capacity of 3 million gallons (MG). The FET project also consists of: the FET Influent Pump Station, the FET Mixing System, and an Odor Control System | \$6 000 000 |
| Lackawanna River Basin Sewer Authority Interceptor and CSO Improvements | Capacity upgrade of approximately 1,410 L.F. of existing LRBSA interceptor pipe from 10" to 18", reconstruction and improvements to an existing LRBSA combined sewer overflow manhole and separation of approximately 390 L.F. of combined sewer lines to eliminate stormwater inflow into the existing sewer system. | \$1 613 608 |
| Munhall San Sewer MA - Sanitary Sewer Deficiency Program | Project consists of 14,133 lineal feet of sewer lining and 3,853 lineal feet of open cut repairs. Locating and raising 629 buried manholes. | \$7 109 000 |
| Beaver Falls City - Sanitary Sewer Rehabilitation | Cleaning ,televising , and lining 70,000 lineal feet of sewers. | \$6 000 000 |
| Mountaintop Area Jt SA - Equalization Tank Project | The proposed project includes the construction of a 3 million gallon above ground glass lined metal eqaulization tank and piping improvements to increase the hydraulic capacity of the plant to 16mgd. | \$3 247 000 |
| Ambridge Boro MA - Phase 2 Consent Order Projects | This project will upgrade the secondary treatment process. The existing trickling filter will be upgraded with new pumps and a new distribution arm, the media will also be replaced. Two new secondary clarifiers will also be added. | \$5 657 800 |

| | | |
|--|--|--------------|
| Pleasantville Boro | The proposed upgraded STP will have a hydraulic design capacity of 400,000 gpd and a design organic loading of 600 lbs/day. | \$4 145 000 |
| Sewickley Boro | Headworks and dewatering facilities will be upgraded and expanded. | \$6 626 100 |
| Wyoming Vly San Auth - Biological Nutrient Removal | Convert the existing wastewater treatment system to the MLE process for Nitrogen | \$15 525 000 |
| Winslow Township - Village of Soldier | Reapplication - The proposed project consists of 22,935 linear feet of gravity sewer, 5,622 linear feet of sewer force main, 89 service connections, two (2) sewer lift stations, three (3) residential grinder pumps and all other associated appurtunances. | \$2 597 300 |
| Bedford Twp MA | Elimination of approximately 194 privately owned on-lot sewage disposal systems. | \$9 415 000 |
| Lancaster Area SA | The Letort Manor/Perth Hills sewer extension project consists of the construction of a new sanitary sewer system to service approximately 260 existing homes that Manor Township's DEP approved 537 plan identified as being a needs area due to clusters of malfunctions and/or polluted well samples. | \$3 000 000 |
| Lackawanna River Basin SA | LRBSA must comply with mandated Chesapeake Bay Nutrient Reduction Strategy. This project employs the chosen alternative of BNR treatment upgrades to acheive compliance with the mandate at the Throop WWTP. Project will also provide needed expansion of the Throop plant from 7.0 MGD to 10 MGD. | \$16 238 376 |
| Southern Delaware Cty Auth | The pump station has experienced elevated flows during rainfall events that could result in overflows from the system. | \$598 200 |
| Potter Twp | The Country Club Park treatment plant is experiencing effluent violations as well as potentially facing structural failure. The Meadows Clinic treatment system is not adequately treating for nitrogen to protect the groundwater as well as creating a limitation on the Clinics bed count. | \$1 461 118 |
| North East Boro SA | With the proposed project, the Site 1 Treatment Plant hydraulic capacity will remain at 2.1 MGD, however, the Site 1 organic capacity will be increased from 18,760 lbs BOD/day to 21,000 lbs BOD/day. With the proposed project, the Site 2 Treatment Plant hydraulic capacity will be increased from 2.1 MGD to 2.9 MGD. The Site 2 organic capacity will also be increased from 4300 lbs BOD/day to 6000 lbs BOD/day. | \$17 985 000 |

| | | |
|----------------------------------|---|--------------|
| Derry Twp MA | The project includes approximately 200 feet of boring under four lanes of PA Route 422 to allow for the realignment of the sewer line to eliminate adverse hydraulic conditions. | \$1 463 900 |
| Gratz Boro MA | The Gratz Borough Municipal Authority is currently under a Consent Order and Agreement with the Pennsylvania Department of Environmental Protection (PADEP) to construct a new wastewater treatment facility. The existing wastewater treatment facility is extremely organically overloaded | \$1 000 000 |
| Lower Paxton Twp. Auth Dale Boro | Replacement of approximately 65,000 feet of sewer, rehab of approximately 4,000 feet of sewer. Combined sewer separation project including approximately 27,000 lineal feet of new sanitary sewers, elimination of all 8 combined sewer overflows, and conversion of the existing sewers into storm sewers. | \$16 630 |
| Foxburg Sewage | The existing treatment plant has a capacity of 0.085 MGD and the proposed plant will have a capacity of 0.160 MGD. The plant has been sized for current and ACT 537 flow growth projections and current discharge limits into the Allegheny River. | \$5 700 000 |
| Johnsonburg MA | The Phase 2 project (Wastewater Treatment Plant Renovations) will encompass the construction of raw sewage pump station and influent force main, pretreatment facilities, flow equalization tanks, activated sludge basin modifications, clarification tanks and associated facilities, chlorine contact tank, aerobic sludge digesters, existing control building alterations, plant control and monitoring system, and various additions/modifications to existing piping | \$2 200 000 |
| Sinking Spring Boro | There will be upgrade improvements to the headworks including the installation of an influent mechanical fine screen, construction of a new third final clarifier including associated pumping and piping, and provision of additional reed beds. piping, and provision of additional reed beds. As well as retrofitting the existing sodium hypochlorite return activated sludge chlorination facilities to chemical (ferric chloride) addition facilities, in order to meet the new total Phosphorus limit imposed. | \$12 651 000 |

| | | |
|--|---|-------------------------|
| Highspire Boro Auth | The plant is currently rated and permitted for 2.0 million gallons per day (mgd) and treats an average of 1.15 mgd. The proposed upgrades are designed for an average daily flow of 2.0 mgd and a peak hydraulic flow of 4.0 mgd. These upgrades must be completed by August 2010 in order for the plant to be in compliance with its total nitrogen and total phosphorous annual loading limits that are in effect in the WWTP's NPDES Permit. | \$5 500 000 |
| Ford City Boro Sew Disp Auth | Sewer separation project consisting of the installation of 5,700 linear feet of 10 inch and 15 inch diameter sewers, existing combined sewers will be utilized to convey storm water. | \$9 607 000 |
| West Pittston Boro | The project will provide protection from flooding for up to the 25 year storm event. Approximately 16,000 lineal feet of sanitary sewage mains will be constructed to achieve the combined sewer separation. New sanitary sewer laterals will be installed in the streets and new manholes will be constructed. | \$1 570 000 |
| Drinking Water State Revolving Fund | | |
| Entity | Project | Amount Eligible* |
| Hawthorn Redbank MA | Water System 1 | \$2 458 205 |
| PA American Water Company | Metering | \$2 125 000 |
| Aqua PA | Honesdale Water System IMP | \$1 419 525 |
| Liverpool | Municipal Authority Water System | \$969 823 |
| Cooper Township MA | 2009 Water Storage | \$2 208 000 |
| Milford Boro MA | Old Water Main Replacement | \$234 994 |
| South Wayne City WSA | Water Improvements | \$1 152 500 |
| Aqua PA | Washington Park Water system | \$824 000 |
| PA American Water Company | Mount Pleasant | \$12 150 000 |
| Montgomery WSA | Well #2 Treatment System | \$1 100 000 |
| Richlandtown Borough | Arsenic Treatment | \$884 324 |
| Buffalo TWP MA | Water Treatment Plant | \$7 200 000 |
| Southwestern Pa Wa | The project consists of the installation of approximately 6,700 linear feet of 12" water line, 8,900 linear feet of 8" water line, 1,700 linear feet of 6" water line, 250 service connections, a 500,000-gallon prestressed concrete water storage tank, and associated fire hydrants, connections and restoration | \$2 521 900 |

| | | |
|---------------------------------|--|--------------|
| Westmoreland Cty Ma | The existing waterline will be replaced with the following: 7500 feet 20-inch ductile iron pipe on west Otterman street, 1000 feet of 12-inch PVC pipe on West Pittsburgh Street and 1500 feet 8-inch PVC pipe on Seminary Drive. | \$4 750 000 |
| Ulster M A | Membrane Water Treatment | \$3 206 250 |
| Erie Cty Water Auth | The project will eliminate an area-wide water quality and quantity in both the Boro and the Township. About 735 people will be provided with safe and reliable Public Water Supply from EWW system. | \$5 449 990 |
| Baden Boro | Waterline Replacement | \$2 250 000 |
| Monaca Boro | Water System Improvement | \$4 500 000 |
| Beaver Falls Ma | The proposed distribution work will help eliminate the line breaks and low pressures (less than 20psi) to the customers. Replacing and adding new meters to the distribution system will help with water loss which is greater than 20%. | \$9 167 940 |
| Jackson Twp Water Auth (Cambria | The proposed project consist of construction of a 278,000 gallon water storage tank, a pump station and approximately 22000 linear feet of 6" and 8" diameter water main pipelines. The proposed project will serve 42 Residential Equivalent Dwelling Units | \$1 700 000 |
| Hazleton City Auth | The overall project includes various water system improvements that will improve water quality, provide better fire protection, increase storage capacity, increase pumping output, increase reliability of water service and upgrade the SCADA communication system. | \$12 508 600 |
| Lehigh County Auth | Water Main Repl. | \$1 302 000 |
| Charleroi Boro Auth | Project inculdes the construction of finished water booster station (Twin Reservoir site), a 12 inch transmission main (between Rodgers lane and the pump station), an elevated storage tank (0.5 MG)and an interconnection with the North Charleroi Service District (looped sytetm to avoid "turnover problems when the school is closed). | \$4 800 000 |
| Pine Grove Borough | The 11 wells are not working in an integrated system that can always supply enough water due to failure of controls, sensors and well pumps . Some wells need to be cleaned to restore yield and / or have pumps replaced. Water mains are leaking and losses range from 23 to 50 %. The concrete storage tank needs repair. | \$2 026 440 |
| Redbank Valley Ma | Intake Replacement | \$2 799 550 |
| Broad Top City Water Auth | Water Sy | \$3 100 000 |
| Bedford Twp Ma | Area 2 And 3 Water Sy | \$7 025 000 |

| | | |
|-------------------------------------|--|--------------|
| Aqua Pa | 2009 Ne Water Main Replacement | \$3 856 510 |
| Schuylkill Cty Ma | Dam Rehabilitation | \$4 717 500 |
| Pittsburgh Water And Sewer Authorit | The project involves the removal of the existing longitudinal sludge collectors and screw cross collections in Clarifier Nos. 1, 2 and 3, and their replacement with new equipment; | \$10 750 800 |
| Aqua Pa | Replace existing well stations, install pitless adapters/raise casings, provide storage (2 w/5000 gallon hydro tanks, 1 w/ storage/pump station), install Cl2 contact pipe, install new electric/control equipment, install emergency generators, install security fencing. | \$1 226 000 |
| Elizabethtown Area Water Auth | The project includes new membrane filtration plant with all required treatment and equipment necessary. Existing clearwell and finished water pumps will be retained. | \$6 026 350 |
| Pa American Water Co | The proposed project will rehabilitate the Pennsylvania American Water Company's Nesbitt Dam as mandated by the Pennsylvania Department of Environmental Protection, Bureau of Waterways Engineering, Division of Dam Safety to comply with current dam safety requirements. | \$31 125 000 |
| Mahanoy Twp Auth | Lofty Dam Rehab | \$833 333 |
| Ashland Area Ma | Ashland Dam Improvement | \$646 650 |
| Highridge Water Auth | The work will consist of constructing a major buttress fill, installation of blanket drains, a new outlet control tower, an emergency spillway and repairs to the existing spillway and outlet piping | \$3 784 315 |
| Sellersville Boro | Project will replace 1000' of 4" CIP waterline with 8" DIP water, 46 water services. | \$377 119 |
| Brookville Ma | The project will eliminate a potential threats associated with the plant capability of 99.9 % inactivation of Giardia cysts. It will also eliminate an operation of an aged and structurely difficent plant. | \$11 638 000 |
| Hilltown Twp Wsa | Project is to bring the authority's well #1 into compliance with the Arsenic Rule in installing arsenic treatment. The authority's other well already has arsenic treatment installed | \$1 108 480 |
| Philadelphia City | Water Main Replacement | \$57 268 193 |
| Pleasantville Boro | Project will make sufficient storage of finished water, that will help operations and fire protection. | \$1 713 300 |
| Volant Boro | Water System Improvements | \$1 312 446 |

Prepared
Exclusively for the
Alliance for PE Pipe

| | | |
|------------------------|---|-------------|
| Aqua Pa | Installation of three "passive" water intake screens and installation of new raw water pumps to improve raw water pumping capabilities and improve operator safety. | \$4 983 200 |
| Aqua Pa | Shenango Intake Dam Rehab | \$1 505 569 |
| Grove City Borough | Meter Replacement | \$1 120 000 |
| Shippensburg Boro Auth | The project includes replacement and in some areas, relocation of approximately 12 miles or 56,300 linear feet of water main pipe with 12-inch ductile iron pipe and appurtenances. | \$7 012 000 |
| Pa American Water Co | The proposed project will rehabilitate the PA American Water Company's Thorn Run Dam as mandated by the DEP-DDS to comply with current dam safety requirements. The project will allow the dam to safely convey the Probable maximum Flood (PMF), improve bank stability, and correct seepage problems. | \$9 650 000 |
| Aqua Pa | Sepa Tank Painting | \$1 714 900 |
| Aqua Pa | Aqua is planning to install residuals thickening and dewatering facilities to reduce the volume of residuals requiring disposal. | \$9 826 200 |
| Greenville Boro Ma | Project includes construction of a new 1,000,000 gallon water storage tank. | \$1 073 700 |

*Amount Eligible refers to the portion of the total project cost eligible for federal and state funding

Clean Water: <http://www.ecy.wa.gov/pubs/0910048.pdf>

Drinking Water: <http://www.doh.wa.gov/ehp/dw/econ-rec-fund-list.pdf>

| <i>Drinking Water State Revolving Fund</i> | | | |
|--|---|--------------------|-------------------|
| Entity | Project | Total Project Cost | ARRA Funds |
| Whitmer Water Association, Inc. | Construct a new water treatment and distribution system. This project will ensure a safe, reliable source of water for customers. The system was originally constructed in 1907 and has not been maintained resulting in significant water loss and water outages. | \$2 265 000 | \$3 765 000 |
| Sun Valley PSD / City of Salem | Take Salem WTP off-line; Extensions: Turkeyfoot, Lake Floyd, Katy Lick, Halls Run, Jarvisville, Racoon Run, Flindertation ... for 457 new customers | \$3 900 000 | \$7 950 000 |
| Town of Bath (Berkeley Springs) | Replace existing potable water distribution lines in the Town. The Town is under a mandatory moratorium on new connections until water loss is reduced allowing the plant production time to be reduced. | \$4 500 000 | \$4 500 000 |
| New Haven PSD/Fayette County Commission | Construct waterline, a storage tank, valves, hydrants, service lines, meter settings and all appurtenances. This project will serve 89 new customers in the Stringtown Road area of Fayette county. 50% of the homes tested were positive for E. Coli. The project consists of 24,275 LF of 8" DIP, 7,200 LF of 6" DIP, 4,250 LF of 2" PVC, a 104M gallon tank and other appurtenances. Originally was part of 2002W-708. | \$680 000 | \$2 265 000 |
| Welch, City Of | In order to maintain reliable service this project consists of repair and replacement of Water Storage Tanks. This will help ensure consistent water quality and quantity to customers. | \$1 250 000 | \$1 380 169 |
| Petersburg, City of | Upgrade City's existing water treatment plant to 2400 GPM; replace existing storage tank and install new tank feed line. This project will enable the utility to meet design standards for storage and reduce plant operating time to the recommended level. It will also mitigate a noncompliant waste discharge. | \$5 000 000 | \$10 700 000 |
| Charles Town Utility Board | Purchase and installation of Radio Read meters to convert from bimonthly reading of meters allowing for quick assessment of flow conditions to better isolate leaks and thus reduce the loss of water. | \$1 655 000 | \$2 000 000 |

| Suring | Construct Arsenic Removal/Bldg Addition, Replace Pump-Well 2 | \$1 168 750 | \$584 375 |
| Amherst | Construct Nitrate Removal Facility | \$1 699 800 | \$849 900 |
| Holland | Improve Well & Treatment System for Radium Removal | \$331 100 | \$165 550 |
| Union Grove | Construct Ion Exchange System & Building | \$1 190 000 | \$595 000 |
| Rio | Rehabilitate Well #3 to Reduce Nitrates | \$330 803 | \$165 402 |
| Fond du Lac | Install Radium Treatment at McDermott Park Reservoir | \$3 574 750 | \$0 |
| Muskego | Abandon Well #5, Demo Pump Sta, Const Sta Well #9, Loop #13 | \$1 082 000 | \$541 000 |
| Withee | Construct Filter Backwash Recycl. Tank/Rehab Filtration System | \$1 778 600 | \$889 300 |
| Lomira | Construct Treatment at Well #1 to Reduce Radium | \$897 000 | \$448 500 |
| Glidden | Upgrade Controls, Add Valves & Recirc Pump System | \$113 700 | \$113 700 |
| Lyndon Station | Construct Storage & Connecting Main, Looping | \$1 334 300 | \$668 400 |
| Whitehall | Construct Iron/Mang Removal/Chem Storage, Add Emerg Power | \$3 555 200 | \$1 777 600 |
| Butternut | Loop Mains to Eliminate Dead End Lines | \$2 033 900 | \$1 016 950 |
| Two Rivers | Replace Lead Services throughout City | \$2 648 770 | \$1 324 385 |
| Adams | Construct Well, House & Mains, Install Pumps & Controls | \$1 236 493 | \$618 247 |
| Turtle Lake | Construct Elevated Storage Tank & Connecting Mains | \$1 129 250 | \$564 625 |
| Avoca | Replace Mains on Wisconsin, Front, 4th & 5th Streets | \$512 216 | \$256 108 |
| Richland Center | Construct Water Main River Xing, Replace 10" Main w/ 12" | \$205 207 | \$102 604 |
| Darlington | Replace 3" and 4" Mains with 8" PVC, Looping, River Crossing | \$447 000 | \$223 500 |
| Glidden | Refurbish Well #1 - Add Valves & Hydrants at Site | \$26 400 | \$13 200 |

| Blue River | Construct Well & Wellhouse #2 | \$469 500 | \$238 750 |
|---|--|----------------|--------------|
| Germantown | Construct Pumping & Treatment Facility For Radium Removal | \$2 598 600 | \$1 299 300 |
| Colby | Construct Wells & Treatment, Install SCADA & Connecting Main | \$102 307 | \$51 154 |
| Cazenovia | Construct Well & Pumphouse #3, Abandon Well #1 | \$643 226 | \$317 113 |
| Stevens Point | Construct Well, Manganese Treatment & Connecting Main | \$3 195 000 | \$1 597 500 |
| Rib Lake | Replace Mains in Railroad St. & Fayette Ave. Area | \$666 112 | \$333 056 |
| Hurley | Replace Cast Iron Mains | \$838 634 | \$419 317 |
| Stanley | Replace & Loop Mains - 3rd, 4th, 5th & 8th Avenues | \$2 283 000 | \$1 141 500 |
| West Baraboo | Construct Well/House#1, Improve Distrib, Install SCADA & Gen | \$1 450 887 | \$725 444 |
| Cumberland | Construct New Elevated Tank | \$2 942 165 | \$1 471 083 |
| Colby | Improve Distribution-Replace Main on STH 13, Add Looping | \$286 265 | \$143 133 |
| Chippewa Falls | Construct Iron & Manganese Treatment for Wells #2 & #3 | \$3 900 060 | \$1 950 030 |
| Cambridge | Rehab Well #2, Repair/Replace Treatment Equip, Modify Ch Rm | \$723 867 | \$192 286 |
| Clean Water State Revolving Fund | | | |
| Entity | Project | Eligible Cost* | ARRA Funds |
| Baldwin | Modify WWTP Chemical Feed, Watermain to Plant, | \$866 200 | \$433 100 |
| Rhineland | WWTP Improvements - New Site | \$27 517 703 | \$13 758 852 |
| Rhineland | New Force Main | \$5 394 921 | \$2 697 461 |
| Walworth | Expand Extended Aeration Activated Sludge Process | \$2 377 180 | \$1 188 590 |
| Fontana-Ongeneva Lake | Expand Extended Aeration Activated Sludge Process | \$4 820 090 | \$2 410 045 |
| Beaver Dam | Expand & Rehabilitate WWTP | \$19 998 000 | \$9 999 000 |
| Altoona | Construct Storm Water Management Pond | \$1 911 000 | \$955 500 |
| Fond Du Lac | Construct Sullivan Drive Stormwater Quality Pond | \$1 412 300 | \$706 150 |
| Green Bay | Upgrade Leonard WWTP; Convey WW & WA Sludge to Quincy WWTP | \$32 273 994 | \$16 136 997 |
| Cambria | Repair Clarifier Mechanism; Rehab WWTP Headworks | \$589 000 | \$294 500 |
| Fond Du Lac, | Construct Hass Circle Stormwater Quality Pond | \$1 304 817 | \$652 409 |
| Green Bay | Upgrade De Pere & Green Bay Fac | \$3 202 500 | \$1 601 250 |
| Green Bay | Reline Sludge Storage Tanks at Quincy WWTP | \$565 000 | \$282 500 |
| Green Bay | Upgrade WAS Gravity Belt Thickeners | \$674 865 | \$337 433 |
| Green Bay | Replace Isolation Gate Guides, Gates & Seals at Quincy WWTP | \$2 108 314 | \$1 054 157 |
| Green Bay | Replace Ferric Chloride System at Quincy WWTP | \$1 017 990 | \$508 995 |
| Green Bay | Replace Pump Station Bar Screens System at Quincy WWTP | \$3 080 031 | \$1 540 016 |
| Grand Chute - Menasha West | Wastewater Treatment Facilities Upgrade | \$40 900 743 | \$20 450 372 |
| Appleton | Construct Kensington Stormwater Detention Pond | \$1 088 520 | \$544 260 |

| | | | |
|--------------------------------|--|-------------|-------------|
| Superior | Reduce Combined Flow w/Billings Prk Strm Swr/Wtr Qual Basin | \$4 764 903 | \$2 382 452 |
| Superior | South Superior Stormwater Interceptor, Phase II | \$1 700 000 | \$850 000 |
| Allouez | Construct Hoffman Road Wet Detention Pond | \$327 133 | \$163 567 |
| Two Rivers | Construct Wentker Court Wet Detention Pond | \$641 523 | \$470 762 |
| Two Rivers | Construct Carron Wet Detention Pond | \$100 167 | \$500 084 |
| Menasha | Construct Cold Spring Wet Detention Pond | \$1 050 999 | \$525 500 |
| Garners Creek Storm Water Util | Construct Main Street Wet Detention Pond | \$930 890 | \$465 445 |
| Neenah | Construct Herzinger Stormwater Pond | \$587 600 | \$293 800 |
| Two Rivers | Construct West Hawthorne Wet Detention Pond | \$474 724 | \$237 362 |
| Omro | Convert a Dry Detention Basin into a Wet Detention Basin | \$175 050 | \$87 525 |
| Little Chute | Construct Evergreen Storm Water Pond | \$328 250 | \$164 125 |
| Buchanan | Construct Speedway Heights Wet Detention Pond | \$305 712 | \$152 856 |
| Neenah | Construct Commerce Court Pond, | \$1 232 765 | \$616 383 |
| Two Rivers | Construct South Columbus Wet Detention Pond | \$371 755 | \$185 878 |
| Marinette | Construct 3 Wet Detention Ponds | \$708 115 | \$354 058 |
| Garners Creek Storm Water Util | Construct Regal Wet Detention Pond | \$97 888 | \$48 944 |
| Brookfield | Bio-Solids Thickening Project | \$2 500 000 | \$1 250 000 |
| Brookfield | Add 2 Deep Bed Filters | \$1 100 000 | \$550 000 |
| Whitewater | Upgrade WWTP Equipment, | \$5 600 000 | \$2 800 000 |
| Dousman | Upgrade WWTP, Phase 1: Headworks, Clarifier, Phos. Rem., UV | \$7 364 107 | \$3 682 054 |
| Evansville | Upgrade WWTP - Sanitary Sewers - Lift Station | \$8 155 479 | \$4 077 740 |
| Milwaukee | Basin B & C Intercepting Structure Construction C06003 | \$2 717 018 | \$1 358 509 |
| Kaukauna | Construct Horseshoe Park Wet Detention Pond | \$380 270 | \$190 135 |
| Menasha | Construct Tayco Road Wet Detention Pond with City of Menasha | \$1 949 705 | \$974 853 |
| Menasha | Construct Northern Road Wet Detention Pond | \$634 360 | \$317 180 |
| Allouez | Construct Kiwanis Park Wet Detention Pond | \$204 823 | \$102 412 |
| Combined Locks, | Construct Riverview Heights Detent. Pond | \$1 124 805 | \$562 403 |
| Little Chute | Construct Heesakker Storm Water Pond | \$394 730 | \$197 365 |
| Garners Creek Storm Water Util | Construct Springfield Pond, an Urban Wet Pond Retrofit | \$1 607 592 | \$803 796 |
| Kaukauna | Construct 17 Acre Pig Regional Detention Pond | \$175 561 | \$87 781 |
| Onalaska | Construct Pretreatment Wet Forebays into Pond 10/50 | \$302 825 | \$151 413 |
| Wisconsin Rapids | Construct Stormwater Detention Ponds Throughout City | \$1 321 800 | \$660 900 |

| | | | |
|----------------|---|--------------|-------------|
| Middleton | Stabilize Pheasant Brnch Creek-Park St to Century Ave | \$250 | \$125 000 |
| Sharon | Storm Wtr Convey & Detention Pond & Sewer | \$1 093 598 | \$546 799 |
| Saint Nazianz, | Upgrade WWTP; Add Septage Receiving | \$542 000 | \$271 000 |
| Milwaukee | 2008 Sanitary & Combined Sewer Rehab | \$2 541 718 | \$1 270 859 |
| Milwaukee | 2009 Sanitary & Combined Sewer Rehab | \$35 698 347 | \$717 784 |

*Eligible Cost refers to the portion of the total project cost eligible for state revolving fund loan money

Drinking Water: <http://www.dnr.state.wi.us/org/caer/cfa/EL/Section/cwfpfundlist.pdf>

| <i>Clean Water State Revolving Fund</i> | | |
|--|--|-------------------|
| Entity | Project | Amount Requested* |
| Bridger Valley Regional Wastewater | Town of Mountain View wastewater (WYPDES No. WY0022896) and Town of Lyman wastewater | \$13 000 000 |
| Wheatland Lagoon | Schedule to correct ammonia in discharge causing stream standard violation. | \$250 000 |
| Lindle Lagoon | Discharge permit compliance problems | \$250 000 |
| Lander Lagoon | Treatment upgrades to meet new ammonia limits (stream standard based). | \$1 000 000 |
| Cokeville Treatment Plant | Treatment upgrades to correct BOD and fecal coliform exceedances. | \$250 000 |
| Buffalo Lagoon | Treatment upgrades to meet new ammonia limits | \$2 500 000 |
| Greybull Lagoon | Lagoon upgrades to decrease short circuiting and improve treatment. | \$1 000 000 |
| Hudson Lagoon | Discharge permit compliance problems | \$250 000 |
| Laramie County Pocket Sewer Extensions | Extend Cheyenne collection system to serve County pockets within City. | \$250 000 |
| Sheridan County Sewer Feasability Studies | Rural areas typically have no sewerage system so utilize septic systems. | \$250 000 |
| Little Goose Sewer System | Construct treatment system or connect to an existing treatment system. | \$5 000 000 |
| Story Sewer System | Construct treatment system or connect to an existing treatment system. | \$5 000 000 |
| Encampment Lagoon | Discharge permit compliance problems | \$500 000 |
| Dixon Lagoon Upgrades | Discharge permit compliance problems | \$500 000 |
| Hartville Treatment | Discharge permit compliance problems | \$500 000 |
| Douglas WWTP Improvement | Discharge permit compliance problems including BOD and TRC. | \$800 000 |
| Glenrock Lagoon | Discharge permit compliance problems for BOD and TSS. | \$250 000 |
| Lucky Lane | Wastewater system improvements | \$250 000 |
| Shoshoni Treatment and Collection Improvements | Treatment upgrades to meet new permit limits for TRC | \$1 200 000 |
| Sheridan WWTF | replacement of deteriorated and undersized equipment. | \$1 500 000 |
| Casper Stormwater | Stormwater control, urban runoff. | \$4 000 000 |
| Sheridan Industrial Stormwater | Industrial runoff control. | \$2 000 000 |
| Allison Draw Watershed | Stormwater control, urban runoff. | \$2 500 000 |
| Cheyenne Stormwater | Stormwater control, urban runoff. | \$10 000 000 |
| Lincoln County | Construct new treatment system. | \$600 000 |
| Alcova Irrigation | Reduce selenium runoff into 303(d) listed streams | \$5 000 000 |
| Campbell County Onsite Treatment System Replacements | Replace old, inadequate septic systems. | \$250 000 |

Prepared
Exclusively for the
Alliance for PE Pipe

| | | |
|---|--|--------------------------|
| Laramie Aquifer Protection | Acquire land and conservation easements for protection of drinking water supply | \$15 000 000 |
| Sheridan Stormwater | Stormwater control, urban runoff. | \$1 300 000 |
| Ranchester Stormwater | Stormwater control, urban runoff. | \$250 000 |
| Gillette Stormwater - Stonepile Creek Drainage | Stormwater control, urban runoff. | \$250 000 |
| Statewide Onsite System Replacements | Replace old, inadequate septic systems. | \$1 000 000 |
| Cheyenne Existing Landfill | Groundwater pollution from existing cells. | \$10 000 000 |
| Casper Bafefill | Special Wastes Building and Baler Building improvements. | \$13 000 000 |
| Reliance Landfill | install or upgrade groundwater monitoring system. | \$1 000 000 |
| Points of Rock Landfill | install or upgrade groundwater monitoring system. | \$1 000 000 |
| Lander Landfill | Cap, leachate control and collection system, additional groundwater monitoring. | \$2 000 000 |
| Campbell County Landfill No. 2 | assessment of corrective measures, cap, corrective measures, additional groundwater monitoring. | \$5 000 000 |
| Campbell County Landfill No. 1 | install or upgrade groundwater monitoring system. | \$2 500 000 |
| Laramie Landfill | install or upgrade groundwater monitoring system. | \$5 000 000 |
| Laramie Stormwater | Stormwater control, urban runoff. | \$3 000 000 |
| Evanston Landfill No. 1 | install or upgrade groundwater monitoring system. | \$2 000 000 |
| Gillette Stormwater - General | Stormwater control, urban runoff. | \$2 000 000 |
| Sheridan Landfill No. 1 | install or upgrade groundwater monitoring system. | \$2 000 000 |
| Sheridan Landfill No. 2 | additional groundwater monitoring. | \$2 700 000 |
| Thayne Landfill/Transfer Station | Install or upgrade groundwater monitoring system | \$1 000 000 |
| Green River Stormwater | Stormwater control, urban runoff. | \$1 000 000 |
| Riverton Landfill No. 1 | install or upgrade groundwater monitoring system. | \$1 000 000 |
| Rawlins Landfill | install or upgrade groundwater monitoring system. | \$2 000 000 |
| Cody Stormwater | Stormwater control, urban runoff. | \$10 000 000 |
| Drinking Water State Revolving Fund | | |
| Entity | Project | Amount Requested* |
| Kemmerer-Diamondville JPB Water Treatment Plant | Turbidity violation and boil order 3/07 | \$2 811 000 |
| Hudson Treatment or New Source | Build treatment plant or construct transmission line from Lander | \$1 000 000 |
| GR-RS-SWC JPWB Presedimentation | Construct pre-sedimentation basin or raw water reservoir to reduce peak solids loading to the clarifiers | \$14 500 000 |
| LaBarge Treatment Upgrades | Well is GWUDI. SWTR violation - failure to filter | \$2 600 000 |

| | | |
|--|---|--------------|
| Newcastle Chlorination | New chlorination system. Replace deteriorated waterlines | \$300 000 |
| Afton Distribution Replacement | Replace service lines and install meters with backflow prevention | \$430 000 |
| Teton Village Water Supply | Construct new water supply wells, storage, and water transmission pipelines | \$2 000 000 |
| Hyattville Service and Improvement Dist. | New well, storage, transmission and distribution system improvements | \$100 000 |
| Manville Treatment or New Source | Upgrade treatment or develop new source to comply with uranium MCL. | \$150 000 |
| Saratoga New Source | New well field, transmission lines, and disinfection | \$200 000 |
| Granger | Aged filter system encourages bacteria growth - replace | \$1 000 000 |
| Evansville Distribution Improvements | Replace old, deteriorated waterlines and appurtenances | \$12 000 000 |
| South Torrington Main Replacements | Replace old, deteriorated and undersized water lines (cross contamination potential). | \$250 000 |
| Wheatland Main Replacements | Replacement of undersized and leaking mains (cross contamination potential) | \$480 000 |
| Yoder Wells | New source and/or treatment | \$500 000 |
| Kirby | Upgrades to improve water quality | \$390 000 |
| Countryside Water Users | New well. Existing well old and deteriorated (cross contamination potential) | \$500 000 |
| LaGrange Treatment Upgrades | Upgrade treatment or develop new source to comply with new arsenic MCL. | \$200 000 |
| Evansville Treatment Upgrades | Treatment plant nearing capacity; expand plant. TCR violation 8/07. | \$3 000 000 |
| Manville Distribution Improvement | Replace old, deteriorated, and undersized mains and distribution appurtenances | \$100 000 |
| Laramie Dist. Upgrades | Replace old deteriorated waterlines (cross contamination potential) | \$2 500 000 |
| Warm Springs Water Dist. | Upgrade treatment or develop new source to comply with new arsenic MCL. | \$200 000 |
| Centennial W&S District New Source | Develop new source to comply with new arsenic MCL. | \$600 000 |
| Sheridan WTP Upgrades | Secondary removal/disinfection process for cryptosporidium | \$6 500 000 |
| Sheridan/Saws Big Goose WTF Upgrades | Secondary removal/disinfection process for cryptosporidium | \$3 000 000 |
| Sheridan Water Main Replacements | Replace old, deteriorated, and undersized water mains | \$19 300 000 |
| Lance Creek Water Dist. | Upgrade treatment or develop new source to comply with new arsenic MCL. | \$200 000 |
| Central WY Re. Water System Treatment Upgrades | Wellfield is GWUDI - construct filtration and in-line ultra-violet disinfection facilities. | \$3 500 000 |
| Laramie County Pocket Water Line Extensions | Extend Cheyenne water distribution system to serve County pockets within City | \$250 000 |

**Prepared
Exclusively for the
Alliance for PE Pipe**

| | | |
|--------------------------------------|---|-------------|
| Rawlins Treatment Upgrades | Treatment upgrades to meet LT2ESWTR. | \$400 000 |
| Lyman Treatment Upgrades | Upgrade treatment or develop new source to comply with new arsenic MCL. | \$200 000 |
| Pinedale UV Disinfection | UV disinfection system to meet LT2ESWTR. | \$4 000 000 |
| Dayton Treatment Upgrades | Treatment upgrades to meet LT2ESWTR. | \$500 000 |
| Skyline Ranch I&S Dist. | Upgrade treatment or develop new source to comply with new arsenic MCL. | \$200 000 |
| Fairway Estates | Upgrade treatment, develop new source, or connect to Douglas system | \$868 000 |
| Sheridan Storage Tank Baffle System | Improve disinfection and prevent short-circuits by constructing baffles in existing tank | \$100 000 |
| Lingle Well | Additional well. Existing wells showing decrease in quality. TCR violation 11/06. | \$250 000 |
| Casper Water Main Replacements | Replacement/sliplining of old, undersized, and unlined cast iron mains | \$5 000 000 |
| Guernsey Dist. | Line replacements, extensions, looping. Asbestos cement lines, lead goosenecks, dead-end lines, iron cement lines, low pressures. | \$1 300 000 |
| Sundance Meadows Water Dist. | Construct 10,900 LF 8" pipeline to connect to Douglas system. Construct distribution system | \$540 000 |
| Rock Springs Water Main Replacements | Replace old, deteriorated, and undersized mains and services | \$1 500 000 |
| Baggs Dist. | Replace old, corroded, and undersized mains (cross contamination potential) | \$1 000 000 |
| Hulett Main Replacements | Replace old, deteriorated, undersized water lines (cross contamination potential) | \$1 050 000 |
| Ten Sleep Dist. Upgrades | Replace leaking water mains (cross contamination potential) | \$500 000 |
| Sheridan Saws New Big Goose Storage | Construct new treated water storage tank and transmission at Big Goose Treatment Plant | \$733 000 |
| Powell Main Replacements | Replace old and undersized water mains (cross contamination potential) | \$575 000 |
| North End Water Supply | New wells or connect to another system or add treatment | \$500 000 |
| Red Lane Water System Improvements | Replace old, deteriorated water lines (cross contamination potential) | \$500 000 |
| Eight Mile Subdivision Upgrades | Drill new well, rehabilitate and reset existing tank, construct new tank, supply line | \$200 000 |
| Chugwater Main Replacements | Replace old deteriorated water mains (cross contamination potential). | \$623 000 |
